DEVELOPMENT PERMIT FOR RESIDENTIAL USE

In the unincorporated areas of Johnson County a Development Permit is required for both residential and commercial use. The following information and application is for obtaining a permit for residential use.

24 Hour Review and Approval Period Required before Permit is Issued.

The following information is required with the completed application. Once reviewed, a checklist will be provided for any additional information needed.

- Warranty Deed or Deed of Trust** that has been filed with the Johnson County Clerk's office.
- Survey of the property** with the stamp or seal of the engineer or surveyor or a copy of the filed plat.
- 911 Address** assigned to future home location. Each residence must be issued a different address. Do not use an existing address of an existing home. If an address is needed contact our office for 911 address voucher.

You may fax, email or bring to our office the completed application and the above information. Our office will contact you when the permit is approved or if more information is needed. If the permit is not obtained within 30 days of notification of approval you must re-submit an application.

Your property may be in an ETJ, the EXTRATERRITORIAL JURISDICTION of a city. If the city requires you to plat/re-plat no permit will be issued until the plat/re-plat has been completed and filed at the Courthouse or we are notified by the city that no platting is required.

Once approved, you will need to provide the following:

- Driver's License**
- Permit fee** may be paid in cash, check, or money order. Check must be signed by buyer at counter unless it is a company check. **May not use another party's check.**
- The landowner must be the one to obtain this permit.** If the landowner is unable to do so, then an exception is made with an authorization form signed by the land owner and a copy of the land owner's driver's license.

When Notified of Approval the Landowner or Authorized Person Must Come to our Office to Obtain Permit

Once obtained, the **DEVELOPMENT PERMIT** must be posted so that it is visible from the road whenever improvements are made to the property.

**DO NOT BEGIN CONSTRUCTION PRIOR TO POSTING THE YELLOW PERMIT SIGN AT SITE
UNAUTHORIZED CONSTRUCTION CAN RESULT IN CIVIL AND/OR ADMINISTRATIVE PENALTIES**
